WHO WE ARE

A Beacon of Excellence in Oil & Gas

Founded in 2001 as the dedicated oilfield services arm of Sigma Group, Sigma Petroleum Services delivers integrated, results-driven solutions designed to enhance well productivity and maximize asset value.

Through deep industry expertise, strong supplier alliances, and a robust financial foundation, we provide efficient, cost-effective services tailored to our clients' operational objectives. Supported by our sister companies Sigma Supplies and Sigma Innovation, we ensure faster execution, safer operations, and dependable delivery across every project.

As part of Sigma Group — a diversified conglomerate established in 1959 with a legacy spanning real estate development, steel trading, industrial chemicals, and marine equipment — Sigma Petroleum Services embodies innovation, quality, and reliability. Today, with over 290 completed projects, we are recognized as one of the leaders in the provision of fast-track and cost-effective production facilities across Egypt, the Middle East, and Africa.

— 25 YEARS OF GROWTH —

Growth & Expansion Timeline

Building capability, expanding reach, delivering results — milestones that define our success.

2001

Founded

Sigma Petroleum Services established to deliver innovative oilfield services and production solutions.

2007

Regional Expansion

Opened Sigma's first international branch in Oman, extending operations beyond Egypt.

2010

Entry into Syria

Awarded the company's first project in Syria, expanding its regional footprint.

2013

First Gas Processing Facility

Delivered Sigma's first gas treatment project with a capacity of 60 MMSCFD for SUCO.

OUR SERVICES & EXPERTISE

End-to-End Oilfield Solutions

Engineered for results — from early production facilities and well testing to optimization, energy efficiency, and production enhancement.

Early Production Facilities

Turnkey EPF solutions on a lease, operate, and maintain basis — deployed in as little as 15–21 days for oil and 4 months for gas.

- › EPC for Early Oil Production Facilities
- › EPC for Early Gas Production & Treatment
- › Modular, skid-mounted, prefabricated designs
- › Deployment as short as 15–21 days

[Learn More >](#)

Gas Treatment Systems

Fully integrated modular gas treatment plants — from engineering and supply to commissioning and operation. From first gas in 4 months.

Well Testing Services

Premium well testing with 25+ years of experience across Egypt, the Middle East, and Africa — precision data for smarter decisions.

Water Treatment & Reinjection

Transform produced water into a strategic reservoir asset — advanced treatment systems for Enhanced Oil Recovery (EOR).

OUR SERVICES

Early Production Facilities

Accelerate Your Oilfield Success

At Sigma Petroleum Services, we've been redefining production facility solutions since 2001. As a trusted leader in delivering fast-track, cost-efficient systems, we offer turnkey solutions on a lease, operate, and maintain basis tailored to short- and long-term projects across Egypt, the Middle East, and Africa.

Our EPFs empower clients to capitalize on new discoveries swiftly, with deployment timelines as short as 7 to 21 days for oil facilities and 4 months for gas facilities. By reducing initial capital commitments — generating cash flow from day one — our solutions enable you to unlock early revenue streams, optimize reservoir performance, and achieve substantial returns on investment while maintaining operational agility.

Engineered for Safety, Built for Performance

Our modular EPF solutions deliver speed, flexibility, and performance designed to get your field online faster and operating smarter. Every system is developed under rigorous process safety reviews ensuring reliable, compliant, and safe operations from day one. Minimizes risk, accelerates regulatory approval, enables rapid deployment and lower CAPEX.

"Whether it's for small to mid-sized fields or large-scale production — we deliver results that exceed expectations."

WHY SIGMA PETROLEUM SERVICES

Your Partner in Operational Excellence

Sigma Petroleum Services has earned a stellar reputation by consistently delivering exceptional results, on time and with stubborn quality. Whether optimizing well performance, managing end-to-end oilfield operations, or navigating complex challenges — we are the name clients trust to get the job done seamlessly and efficiently.

Fast-Track Execution

Timely project delivery even under the most demanding schedules.

Proven Expertise

A strong record of successfully executed projects across MENA and Africa.

Diverse Inventory

Extensive equipment and materials for immediate mobilization at any scale.

Integrated Operations

Seamless O&M support aligned with contractual frameworks.

Rapid Scalability

Smooth expansion of project scope as operational needs evolve.

Flexible Contracts

Short- and long-term solutions tailored to client requirements.

Environmental Commitment

Quality, safety, and environmental responsibility embedded across all activities.

Trusted Partnership

The name clients trust to get the job done — seamlessly and efficiently.

*"Let Sigma Petroleum Services be your partner in achieving operational excellence.
Together, we'll power the future of energy."*

GLOBAL PRESENCE

Proven Delivery Across Diverse Markets

With a strong operational presence across the MENA region and Africa, delivering under diverse conditions, regulatory frameworks, and project scales.
